

visit Inverness loch ness

Trail User Notes April 2019

On this page we post notes about the South Loch Ness Trail of which users should be aware:

- Between Torbreck Woods and Dores a low level alternative to walking up on to Drumashie Moor can be taken by following the cycle route at the side of the B862 to Scaniport. Turn left here and follow a minor road which joins the route of the trail again at Darris.
- There is a short section of trail, beyond the village of Dores on the B852, which is **not waymarked** for approximately 1 mile. Keep to the rough track between the road and the loch-side until the track comes up to the road and you see a waymarker on the opposite side.
- The section of trail between Inverfarigaig and Foyers is not suitable for cyclists or horse riders. The alternate route is via Glen Lia (Gleann Liath). However, this alternate is also presently closed due to logging by the Forestry Commission. There is no alternative routes for cyclists other than to continue from Inverfarigaig to Foyers along the B852
- At a number of places along the route of the trail it passes across land which is part of a farm/ working estate. Please exercise caution here and keep dogs on a leash at all times when livestock are in the vicinity. There have been a number of incidents recently when this has not been adhered to resulting in stress to the animals.
- Between Foyers and Whitebridge there is a river crossing which although normally very shallow, after heavy rain may result in wet feet!

If you notice any waymarkers that have been vandalised or damaged, please let us know by e-mailing info@visitinvernesslochness.com or phone 01463 219219. Thank you!

And finally... we are delighted to confirm that with completion of the South Loch Ness Trail the trail has now been linked up to the Great Glen Way on the north side of Loch Ness to create the 'Loch Ness 360°' trail, a 72 mile route around the whole of Loch Ness... watch this space for more information!
